# DNV.GL

# TYPE APPROVAL CERTIFICATE

Certificate No: E-13894 File No: 823.20 Job Id: 262.1-009656-3

This is to certify: That the Contactor

with type designation(s) **MC Type Contactor** 

# Issued to LSIS Co., Ltd. Cheongju-si Chungcheongbuk-do, Korea, Republic of Korea

is found to comply with Det Norske Veritas' Rules for Classification of Ships, High Speed & Light Craft and Det Norske Veritas' Offshore Standards

#### **Application :**

For installation inside switchboard/enclosures onboard ships and offshore units.

Rated Voltage (V)	Up to 690
Rated Current (A)	9 to 800
Frequency (Hz)	50/60

This Certificate is valid until **2018-12-31**. Issued at **Busan** on **2015-04-15** 

DNV GL local station: Seoul

Approval Engineer: Byoung So Lee

for **DNV GL** 

Baeg Soon Choi Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

 Certificate No:
 E-13894

 File No:
 823.20

 Job Id:
 262.1-009656-3

# Product description

3-pole electromagnetic contactor that controls the switches of electric circuit, the thermal overload relay that protects the overload of motor according to utilization category as listed below.

A. Utilization category AC-2 and AC-3:

ТҮРЕ	ELECTRICAL RATINGS

#### Application/Limitation

For installation inside switchboards/ enclosures onboard ships and mobile offshore unit.

### **Type Approval documentation**

Specification for magnetic contactor, MS-623-694 dated 2010-07-15

Test reports: R410-1282 MC-6a, 9a, 12a, 18a dated 2010-08-27 R410-1283 MC-9b, 12b, 18b, 22b dated 2010-08-27 R410-1284 MC-32a, 40a dated 2010-08-27 R410-1285 MC-50a, 65a dated 2010-08-27 R410-1286 MC-75a, 85a, 100a dated 2010-08-27 R410-1287 MC-130a, 150a dated 2010-08-27 R410-1289 MC-265a, 330a, 400a dated 2010-08-27 R410-1290 MC-500a, 630a, 800a dated 2010-08-27

Type assessment report for retention dated 2014-11-27

Certificate No: **E-13894** File No: **823.20** Job Id: **262.1-009656-3** 

## **Tests carried out**

Type tests according to IEC 60947-4-1. Environmental tests including dry heat, damp heat, vibration, high voltage,cold, inclination and insulation resistance test.

## Marking of product

LSIS – Type designation - Rating

#### Periodical assessment

The scope of the retention/renewal survey is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials.

The main elements of the survey are:

- Ensure that type approved documentation is available
- Inspection of factory samples, selected at random from the production line (where practicable)
- Review of production and inspection routines, including test records from product sample tests and control routines
- Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
- Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
- Ensuring traceability between manufacturer's product type marking and the type approval certificate

Retention survey is to be performed at least every second year and at renewal of this certificate.
